Gary

Attached is the PDF and MS Excel versions of the Sediment Bioaccumulation Factors table prepared by EA's Toxicologist/Risk Assessor, Doug McReynolds. This is an informal ad hoc submittal provided only for use as supporting documentation, as requested by EPA. EA will also deliver a hard copy of this submittal, as well as hard copies of the associated references cited in the table, to the EPA mail room later today.

Please feel free to contact to discuss this submittal.

Thank You
